

## Lawo Nova 73HD & mc<sup>2</sup>56 MkII Console Hire

We have two systems available for hire, each offering extensive resources for the most demanding productions.

### Each system includes:

- **Lawo Nova 73HD Core:** The heart of the system, this powerful audio router and DSP core provides the processing power and flexibility needed for large-scale broadcast and live sound applications.
- **Lawo mc<sup>2</sup>56 MkII 48-Fader Console:** A fully equipped 48-fader control surface, offering intuitive and tactile control over your mix with a comprehensive set of features and customizable layouts.
- **Redundant Components:** Each system is configured with full redundancy for both the core and power supplies, ensuring uninterrupted operation for critical events.
- **Comprehensive I/O:** The systems come with a robust selection of MADI, Ravenna and AES ports, providing extensive connectivity options for all your audio sources and destinations.

Our systems are ideal for large-scale events, live broadcast productions, and multi-studio facilities offering reliability and flexibility. We can provide experienced engineers on-site to support the system and also have a wide range of additional equipment to supplement as required.

- **Lawo Nova 73 Compact Cores:** Additional compact cores are available for expanded processing capabilities.
- **Lawo mc<sup>2</sup>56 MkII 16-Fader Console:** 16-fader surfaces can be supplied as add-ons for the system
- **Lawo Dallis I/O:** We also provide a full range of Dallis I/O units, offering analogue/AES connectivity in the field
